A Mod on Amazon.

The daughter of a well-known professor in Vienna has been for some time past the terror of her friends and neighbors through the eccentricity of her conduct. The lady counts eighteen summers; she has received a classical education, and is indignant at the fact that female emancipation is not sufficiently advanced in Austria to allow of her attending the University lectures. She at last got over this difficulty by donning male attire, her deep contralto voice helping the effect of this masquerade. Since she has begun to go about in men's clothes, the young lady appears to have assumed all the manners and habits of a student, and takes a special delight in fencing. She can handle the rapier as well as any old student who has fought his ten duels. Her cousin, a top-form grammar-school youth, was her partner and instructor. One day the young miss actually challenged him to fight her with blank weapons, as she found the simple practices were getting too monotonous. The young fellow had no objection to the thing itself, but to fight a girl that was hardly to be expected from one who felt himself "evrey inch a man." But his fair cousin managed somehow to overcome his scruples. Blank weapons were soon procured, and a surgeon's assistant engaged to be in attendance. The duel actually took place a few days ago. In the second round the young damsel received a gash on her cheek, which had to be stitched up, and she now goes about with a strip of pink court plaster on her face—as proud as any stage heroine.—Wiener Tageblatt.

Any one who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionery establishment. Some months ago, on leaving the heated work room to run across the street on an errand, he was caught out in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle of it in the house. For sale by all dealers, Benson, Smith & Co., agents for the Hawaiian Islands.

TO LET.

Several Cottages at Moderate Rentals.

FOR SALE ON EASY TERMS.

House Lots, 1 1/2 miles from Post Office, on and near King Street, a few steps beyond the Kaneh-meha School grounds. This offers a good chance to secure Homesteads at moderate prices. With an ex-nation assured in the near future, a House Lot so near the business center forms one of the most desirable investments for a small sum of money. Corporations or anyone desiring to invest in Large Tracts of Suburban Land can be accommodated at reasonable figures with Tracts of from 5, 10 to 50 Acres.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

Mr. John A. Scott, Manager of the Hilo Sugar Company, gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3004 tons. This is fully 10 percent more than the best work of former years.

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company.

"And by its use the extraction has been increased from 3 percent to 5 percent on all kinds of cane, and in some cases 80 percent has been reached; the average being 75 to 78 percent, according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoons.

"The shredder and engine require very little care or attention."

Plans and specifications of these Shredders may be seen at the office of
